

StickIt-19

StickIt-19 is a penetrating agent which increases the coverage area and efficiency of insecticides, pesticides, fungicides and nutrient foliar sprays by ensuring even and uniform spread and penetration over the plant.

Chemical Description

- Name: Natural Oil Surfactant
- Type: Non-ionic

Recommended Dosage:

0.5-1 ml for foliar application and 250 ml per acre for soil application

Crops:

Field Crops:

- Cotton, Paddy, Wheat, Sorghum, Sunflower, Groundnut, Potato, Mustard, Cumin, Pulses (Moong, Tuver, Chana), Soyabean, Sugarcane, etc.

Fruit Crops:

- Banana, Mango, Grapes, Guava, Sapota, Pomegranate, Custard, Apple, Orange, Citrus Fruits, Coconut, etc.

Vegetable Crops:

- Tomato, Chilly, Brinjal, Onion, Lady's finger etc.

Plantation Crops :

- Coffee, Tea, Cardamom, Horticulture plants, Floriculture, Medicinal Plants, Home gardening etc.

Product Advantages:

- Superior Wetting
- Superior dispersion
- No odour
- Readily biodegradable
- Effect is 4 times better than regular sticker and lesser amount is required
- The pH of the product is neutral (pH=7) and very stable and because of its ion exchange capacity, it is a very good soil conditioner
- It helps to remove the deposited salts in the drip line hence clears any drip choke-up.
- Helps reduce excess water in root zone by allowing deeper penetration. Reduces evaporation
- Enhances leaf cuticle permeability, increasing rate of penetration of herbicide through the leaf especially in dry weather
- Less runoff of water, insecticides, pesticides, etc from surface of the leaf
- Better spreading leads to better protection which leads to higher yield
- Increases the coverage area and efficiency of insecticides, pesticides, fungicides and nutrient foliar sprays
- Moisture is more readily absorbed into the soil with deeper penetration, less runoff
- It saves on spraying cost
- It works and helps in increasing and improving the porosity of the soil which will definitely help to increase the yield of the crop
