

SuperTonic

Foliar Spray Powder

"SUPERTONIC" foliar spray contains the mixture of plant & algae (Sea Weed) extracts naturally occurring enzymes, vitamins, trace elements and amino acids of plant and animal origin.

"SUPERTONIC" foliar spray is a natural plant growth promoter easily absorbed and utilized by plant and fruits for their growth and development.

SUPERTONIC fulfills the nutritional demand and accelerates the metabolic processes, thus enhances the activity of naturally available enzymes and hormones in plant and enhances overall metabolism in plants. These changes help in the formation of food materials like carbohydrates, proteins etc. This results into flowering and higher fruit setting.

SUPERTONIC promotes cell division, which results into growth and development. SUPERTONIC induces the growth and development of primary as well as secondary root system resulting into more absorption of nutrients from soil.

SUPERTONIC improves sympodial branching (fruit bearing branches). SUPERTONIC boosts up the growth and development of plant resulting into vigor, health and Improvement of quality and yields.

The protein is derived from soya blended with finest quality of vitamins, auxins and PGRs. The effects are visible on all types of crops within 24 hours. Due to nano-particle size, over-dosage does not lead to scorching of the leaf. Also, there is no harm to the plant-friendly insects.

Dosage:

1-2 gm of SuperTonic per liter of water. One spray a month is enough for optimum results.

Technical Specifications:

| | |
|-----------------------|--|
| Description | A fine free flowing spray-dried powder containing unique combination of organic nitrogen (amino acids), phosphorous, potassium, calcium, essential minerals, trace elements, vitamins and other organic bio-activators |
| Color | Buff yellowish, greenish colored spray dried powder |
| Solubility | 2% solution in distilled water is clear |
| Ph 2% solution | 5.19 @27 °C |
| Total nitrogen | 9.13% W/W by Kjeldahl's method |
